

# Dmitrii Artemev

Fullstack software developer with strong interest in ML  
Master of information technology(work visa for 3 years)

## Career Objective

I am a passionate Fullstack Developer originally from Yakutia (based in Wellington, New Zealand), with a strong foundation in frontend development using ReactJS. Currently focused on the MERN stack (MongoDB, Express, React, and Node.js), I am dedicated to creating user-friendly, responsive web applications. My work centers on building intuitive user interfaces while continuously learning and improving my backend development skills. I am also deeply interested in machine learning and its potential to enhance user experiences on websites, exploring innovative AI applications to simplify and enrich users' daily lives online. Overall experience in development - 15 years.

## Skills

- Frontend Development: extensive experience in building responsive and dynamic web applications with a strong focus on user-friendly and intuitive interfaces. Proficient in modern frontend technologies, including ReactJS, Redux, Material UI, and TailwindCSS. Previously worked with jQuery, Bootstrap, and ASP.NET.
- Backend Development: skilled in creating server-side logic and APIs using Node.js with Express. Adept at integrating backend services with databases to deliver robust and scalable solutions.
- Database Management: proficient in managing and querying relational and non-relational databases, including MSSQL, MySQL, and MongoDB.
- Code Practices: committed to writing clean, reusable, and maintainable code with a focus on scalability, efficiency, and readability. Ensures robust and future-proof solutions by adhering to industry best practices

## Education

- Master's degree on Information Technology, Whitireia New Zealand, 2024, GPA 90.6.
- Intelligent systems, at Peter the Great St. Petersburg Polytechnic University, 2023, GPA 96.
- Yakut State University, Yakutsk, 2002-2007 (Specialty - Mathematician, system programmer)

## Portfolio

## Projects and Professional Development

- Completed courses on cloud technologies, supplemented by certification in AWS Academy Cloud Architecting and Cloud Foundations.
- Completed a research project on the use of AI at the conceptual stage of creating an information model of a building.
- Completed an interesting project on image classification using the Kaggle dataset

## Experience

### GENERAL LABOURER | HAYS

Dec 2024 - Present

Why sit idly when you can be useful?

### CHIEF PROJECT ENGINEER | PROJECT MANAGEMENT, AGILE, FINANCIAL MANAGEMENT, DIGITAL TRANSFORMATION

May 2018 - February 2024 (5 years), Gorproekt LLC.(150 employees)

Efficiently managed resources and coordinated the engineering team, ensuring quality and compliance at every stage. Introduced an AI-driven approach to floorplan design, improving accuracy, speed, and decision-making time while optimizing design processes. This initiative boosted team performance, strengthened market position, and led to a 20% increase in orders.

### SOFTWARE DEVELOPER | REACTJS , ASP.NET, JAVASCRIPT, HTML5, JQUERY, BOOTSTRAP

July 2013 - May 2018 (5 years), AKD-Group LLC.(5 employees)

- Developing websites with ReactJS|Bootstrap; ASP.NET|jQuery (about 15 sites as I remember now, of varying complexity from landing pages to e-commerce)
- Android Applications Development (got acquainted with React Native, liked it)

### SOFTWARE DEVELOPER | ASP.NET, JAVASCRIPT, JQUERY, BOOTSTRAP

April 2008 - June 2013 (5 years), Gorproekt LLC.(150 employees)

- Developing websites with ASP.NET|jQuery
- Development and maintenance of information system for providing urban planning activities. This system still works!))
- Organized the work of the IT department, solving a variety of technological issues, making tactical decisions and carrying out strategic planning
- Windows Server, AD, Exchange Server, network hardware support

### SOFTWARE DEVELOPER | ASP.NET, JAVASCRIPT | ICT SERVICE MEMBER

May 2005 - March 2008 (3 years), Display LLC(150 employees)

- Development and maintenance of websites on ASP.NET
- Development of a geographic information system for the needs of housing and communal services in one of the regions of my republic. Developing automation modules for ArcGIS software

## Hobbys

Enjoy I enjoy spending my free time hiking, fishing, and walking our dog Fozzy. These activities allow me to stay active, connect with nature, and enjoy quality time with my loved ones
